Kevin:

Just a note to say thanks for conducting the MVP Sports Training session with members of the Chicago Fire soccer team.

The feedback from our players and coach Osorio was very positive – I have been told by one player already that he has put your tips to use in his latest interview.

I found your presentation to be insightful and comprehensive, and no doubt those who attended will benefit from your advice. Hopefully Chicago will be the first of several Major League Soccer (MLS) teams that utilize your services.

Respectfully,
