Mr. Kevin Long
MVP Media Training

Dear ~~Kevin~~ *Kevin*

Thank you for your recent visit to the Air Force Academy to visit with me and our student-athletes. Your presentation was a tremendous educational experience for all of us.

Our student-athletes will certainly benefit from your helpful hints and the examples you displayed to us about "good" and "bad" interviews. The individual session with me was outstanding. I'm confident we'll see the benefits of this training in the months ahead.

With the media world as it is today, it was good for some of us to get a refresher course in dealing with the media. The messages we put out from our campus reach more people now than at any other time period in our history. The training we received from you will be a tremendous asset to us in the ever-changing world of collegiate athletics.

Sincerely

Hans J. Mueh
