

Kevin Long, President
MVP Sports Media Training

Dear Kevin:

I just wanted to express my appreciation again to you for the media training session that you held with our women's basketball team this past November. We have found that the information that you shared and the advice that you provided to our players and coaches has been valuable in each of our encounters with the media. We now feel very confident when dealing with interview situations and we truly feel that we have grown in our communication skills and in our appreciation of the job and service that the media provides for our program. The training that you provided has been one of the important ingredients in strengthening our team this season. Again, we thank you!

Sincerely:

A handwritten signature in cursive script that reads "Vanessa Blair".
